CUSTOM ORDER WOOD SCREEN DOORS

All of our SBP Wood Screen Doors are available as a Custom Door. Custom Sizes and Wood Options allow your customer to order their perfect door.

Our Standard (Stocked) Wood Screen Door is constructed of Pine with a Stained Light Oak or Painted White Finish. Most of our stock doors are 3/4" (See specifications pages) but all can be ordered as 1-1/8".

Also, any SBP Wood Screen Door is available with Douglas Fir or Solid Oak construction.

Our SBP Order Desk will be glad to answer any questions and help with the order. We do require that a Written Confirmation be sent for all Special Order Wood Screen Doors. This insures that you and your customer get the correct item the first time. There are no returns allowed on Special Order Wood Screen Doors. Confirm lead times with our SBP Order Desk. During "Peak" screen seasons the lead times may be 8-10 weeks on Custom Doors.

Contact our Order Desk for more information.
